Get ready for some serious hardcore off-road action as Hula-X (Hulacross!) and the Powderpuff Demolition Derby gets into high gear at Kalaeloa Raceway Park! On **October 16th, 2010, at 8AM** the gates open for the first ever continuous lapping offroad rallycross competition!

What is Hula-X?

Hula-X (AKA Hulacross) is a play on words mixing the native Hawaiian meaning for **dance** and the cross in r

allycross

. Hula-X racing consists of continuous lapping on a mixed terrain course consisting of dirt, coral, and asphalt. Beginning heats will last for a timed period of lapping with the best times posted as your spot time. Final Heats will be determined by these spot times taken early in the day with your best time as the final result. Initially, the event will center around timed lapping but as the series progresses, we'll focus more and more on wheel to wheel offroad racing, depending on the advancement of our drivers. The course will also feature passing zones, tabletop jumps, and mud pits where the best will be separated from the rest. There will also be a bit of strategy involved...you have the option of avoiding the tabletops and mudpits at your discretion, but possibly with a loss of time as you take alternate routes. All in all, it will be some of the first off-road action of it's kind on Oahu. Hulacross is also an inside joke...so if any of you

hulagans

are down for some offroad racing, then join us on Saturday as we tear it up.

Rules & Classes

Although personal vehicles are allowed, the course is designed primarily for a dedicated off-road vehicle mentality. We think you'll have more fun if you're not worried about driving to work in the same vehicle the following Monday. Classes will be limited to **FWD, RWD, AWD, & Un**

limited

(ie, total race) vehicles. No ATVs or Motorcycles will be allowed on course due to insurance restrictions. All vehicles must be of sound body and construction and in decent running order and have at the minimum DOT standard seatbelts in place. Vehicles do not have to be street legal or registered. Vehicles with a high center of gravity will only be allowed at the discretion of the Event Manager. Participants must have helmet, long pants, shirts, and closed-toe shoes. For those of you interested in competing in the Wheel 2 Wheel class, we are looking for window nets & roll cages primarily. Additional safety equipment may be required.
