

We're very happy to present the first SCCA RallyCross video filmed by KRP! For those of you that don't know, SCCA RallyCross is a very fun and safe way to test and improve your offroad driver skills in your own personal vehicle against the clock. The timed course is wide and free of obstructions and ran on mixed terrain.

SCCA RallyCross is the third off-road event held at Kalaeloa Raceway Park. It's cheap and easy to run, so if you've got a hunger for some serious off-roading, then come out to our next RallyCross in February and check it out! For now, enjoy this short video and see all the fun they're having!
