

This video is a full length, unedited capture of the Press Conference held by George Grace Jr. Owner and Operator of Kalaeloa Raceway Park for KITV & KHON2.

This video is in response to the negative press that we have been receiving since the media received an "exclusive" tip and we became the focal point of their investigations.

Over the past few years, we've found that the news can portray stories however they like by taking bits and pieces and manipulating them to fit their slant. This interview allows you to see the full response made by the park owner to the allegations being brought forth by "anonymous" informants and the visible complainers.

Kalaeloa Raceway Park is a grassroots motorsports facility built to replace the now closed Hawaii Raceway Park. All proceeds generated from the park events go directly into the continuing development of the park. It is run and staffed by primarily volunteer workers dedicated to providing a safe, legal place for motorsports activities and entertainment. Our goal is to eventually complete both dirt and asphalt surfaces to support the majority of the displaced drivers, riders, and spectators that have gone without a home for so long.

We're here because we care about motorsports and those who participate...
