

As many of you know, we have had a hard fight with the Department of Hawaiian Home Lands. Last year, we prepared a video presentation for the Hawaiian Homes Commission detailing the importance of the track and our island's motorsports future. Unfortunately, our request for the time to sit down and work through the problem's facing us fell on deaf ears.

At this Commission meeting as well as the other two times we asked for help and resolution. These meetings resulted in a loss of quorum and we have not had redress since even after a recommendation by the Senate Committee on Hawaiian Affairs for just that.

We present this video to you, because we feel that it is special and details how bright our future could be if given the support needed to carry on our mission of returning motorsports to the island of Oahu for the young and for the young-at-heart.

Please join us in our fight...sign the petition at [Change.org](http://www.change.org).

OUR COURT DATE ON JULY 29TH IS POSTPONED. PLEASE DO NOT ATTEND.
