Saturday, 11 December 2010 00:00

A spectacular, fully lighted float featuring race vehicles of various types was created by Kalaehoa Raceway Park and entered in the Kapolei Christmas Parade on Dec 11, 2010. It was a fantastic night of free candy and a beautiful light display with backing Christmas music. KRP staff and their families put a tremendous amount of work into constructing it's first ever parade float and the results were spectacular. Featuring a Semi modified to look like a train with an immense cow-catcher and tracks, the entire float was a smash hit during the parade!
